Office of Legislative Counsel

Monday - 12 October 1959

1. Met with William Darden and furnished to him a copy of the Report to USIB on the Exploitation of Foreign Language Documents. He thought this would be of interest to the Senate Armed Services Committee.

2. Frank Ecker, Bureau of the Budget, telephoned to indicate that he was recommending to the Legislative Reference Division that the CIA letter to Senator Fulbright on S. 2188 be cleared as written and presumably they would so act. I assured Ecker there was no urgency on this but we were merely following up.
